## LILLY GOLD TRAVEL CARRY ON ZIPPER MSP 49.99

We are advised to carry our prescriptions, valuables, must haves and computers in our carry-on “just in case”. Just in case you haven’t had the bad experience yet, more and more carry on cases are being taken away at the gate and removed to the belly of the plane with the big bags. You do get a check stub but you don’t have your valuables....maybe never will again. The Lilly Gold zipper is a convertible backpack luggage accessory that slips on and off your carry on in seconds. It has thermal pockets to hold your beverages and large pockets to hold tablets and many other personal and valuable items. They might take your carry-on but they can’t take your zipper!

## LILLY GOLD PRODUCT CATALOG

## 2014 FALL

Lilly Gold, established 2004, is a boutique company that originally created products for families that travel with small children. Our small children have had their own small children so we now create product for grownups that move about too.

The mission of the company design goals is to create products that make traveling easier. As the travel industry changes so do we by creating new products that reflect the challenges we ourselves face as we move about the country and the world for business or pleasure.

We began as a small single item company with the well known and deeply appreciated Sit N Stroll. This is now our Level 1 and highest priced solution. We have added

three more levels of solutions for traveling with car seat in addition to many other travel assist products.

Enjoy the catalog and as always, feel free to offer suggestions or comments about challenges you have faced while travel.

We own factories. We can do thing!

As Always,

Lilly Gold
